

OPEN LETTER TO WARREN BUFFETT:

The Legendary Jesse Livermore's Seminal Point:
There is Only One Side to Capital, and that is The Right Side.

The Right Side to *Berkshire Hathaway* is Down:

**Berkshire Hathaway is a Replicant of the SPX 500,
Already Front Running it to the Same Fate:**

We Are At Generational Peak Profits, The only Metric that Matters.

**The SPX will Reflect This *Infra*, as you Say,
The "Weighing" of the Long Run.....**

"Long Run" being Contemporaneously.....

Not only is it a Prime Short, it is the Safest Short in the World.

The Best "Credentialed Bear" of All:

**I Invite You or Anyone Interested to Examine My Public Record on
Interest Rates, The Dollar and Gold to Back This Up.**

Have the Courage of Your Convictions to Back Up Your Challenge ?

If So, or Anyone Else Does, I Will Prove It with
No Capital Upfront and Without Control of the Capital:

**I Will Trade \$ 1 Billion + Strait Short Berkshire Hathaway and
Out Yield Anyone Long from Day One to 36-48 Months.**

\$ 100 Million Placed in Trust Against ½ All Profits Made When I Make Good.

**The Principle *No Man is Bigger than the Market* Will be Reaffirmed for All to See:
"Manipulation" is a Lame Excuse by Proponent and Believer.**
