“RANDOMNESS”

RANDOMNESS IS A FALLACY
BASED ON LACK OF KNOWLEDGE, NOT REALITY.

“QUANTUM” IS ON THE ROAD TO PROVING THIS <u>ABSOLUTELY</u>,
TURNING ALL WRITINGS, BOOKS AND CLAIMS TO DUST.

THE “BLACKJACK ANALOGY” DOES IT LOGICALLY.

IMAGINE THE DEALER ALLOWED YOU TO PICK THE CARDS FACE UP,
IF YOU KNEW THE “BLACKJACK”, YOU WOULD PICK IT AS IT
APPEARED RELATIVE TO TIME.

IF YOU DID NOT, YOU MIGHT PICK THE “BLACKJACK” ANYWAY,
WHICH EXPLAINS “WHY” SOME PARTICIPANTS GET “LUCKY”.

SINCE EVERY PARTICIPANT MAY PICK THEIR POSITION AND
THE MARKET HAS “BLACKJACKS” NON-STOP,
THE LACK OF “RANDOMNESS” IS PROVEN IPSO FACTO.

<u>BECAUSE MARKETS ARE NOT RANDOM,</u>
<u>YOU DO NOT NEED TO KNOW MANY THINGS, ONLY A FEW</u>.

THE MAJOR INSTRUMENTS OF THE DAY REPRESENT THAT “FEW”.
THOSE INSTRUMENTS HAVE CRITICAL INFLECTION POINTS,
THAT <u>CAN BE PERCEIVED</u> IN “REAL TIME” AS “POINTS” OR “PRIME NUMBERS”.

“PRIME NUMBERS” EXIST IN THE BOND MARKET, US DOLLAR, AND APPLE,
WHERE A SINGLE POSITION IN THE 100s OF BILLIONS
CAN BE SAFELY AND RELIABLY TAKEN.

“OUTCOMES” ARE NOT “RANDOM” EITHER.
THEY ARE A PROCESS, NOT AN EVENT.
