

SLIM 2009

Published in "Fortuna" National Magazine, Mexico, Spring 2009

An Open Letter to Carlos Slim Helú:

The eminent *Warren Buffett*, as others, say and believe that the level of Capital you and he have achieved cannot increase exponentially.

With all respect to him, he is wrong. *Dead wrong.*

The Fundamental and Accepted belief in Diversification is akin to the belief that the World is Flat – Diversification actually *decreases Yield over Time - the greater the Diversification the lower the Yield over Time - and I can establish that beyond any doubt.*

I will demonstrate the so-called "Conventional Wisdom" is in reality "Collective Ignorance".

The Key to it all is in the Understanding, Acceptance and Application of the Principles that *Time is Lineal* and *Yield is Circular.*

These Principles govern ALL Capital in ALL applications, as Gravity is to Objects.

I can double ANY amount of Capital you put on the Table in well under 4 years, with no more than 20 % Risk to Capital at any given time and at least 80 % daily Liquidity.

And I can do it easily.

Who is the Richest Man in the World ? The answer keeps changing.

With me, that question will be answered Decisively and Finally.

You WILL pass the \$ 100 Billion line in short order, and never look back.

What's in my Mind is *Nobel Prize* material – but I am not interested in the *Nobel Prize*. I am interested in monetizing that knowledge to my satisfaction.

Put up at least \$ 1 Billion on terms to be negotiated, and I will share it with you and your Progeny.

Once you know me you will know that mine is one of the Greatest Minds EVER to come along in Capital Markets – and I will re-define your very beliefs.

I am a Man with the *Vision* to see what is possible, and the *Confidence* to make it a reality. Many confuse that with Arrogance. I think you know the difference quite well.

And as you know better than anybody, the Depth and Breadth of a Man's Talent is not defined by his Pedigree, Capital, Education, or Status in Society.

I will look forward to hearing from you.
